- ~5 hours of coverage
- ~All rights to photos (1,000+ photos)
- ~Up to 400 edited/retouched photos
- ~Digital download delivery

## VIDEOGRAPHY

\* Videography is split into two, very different services. The first – **'The Cinematic Highlight Reel'** – is a highly produced video (color correction, cropping, transitions, etc) that includes slow motion shots and music. You can find examples here: [thomashedges.org/w-e](http://thomashedges.org/w-e). **'The Standard Documentation Package'** is the more traditional, home video-style, straight capturing of the wedding's most important moments: the ceremony, toasts, dances, cake cutting. These moments are then strung together into a longer form highlight video that ends up being about 45 minutes long. We don't provide examples of **'The Standard Documentation Package'** on the website due to length. Finally, **'The Hybrid Video Package'** includes the best of both worlds, usually including the entirety of the ceremony along with highlights of the rest: pre-wedding, first dances, toasts, cutting of the cake, and more.

### The Cinematic Highlight Reel Package - \$2,300

- ~Up to 10 hours of coverage
- ~5 minutes of finished, edited video with music
- ~Digital download delivery

### The Standard Documentation Package - \$1,700

- ~Up to 10 hours of coverage
- ~About a 1 hour video that includes important moments with audio
- ~Digital download delivery

### The Hybrid Video Package - \$2,200

- ~Up to 10 hours of coverage
- ~About a 30 minute video that usually includes ceremony and audio along with highlights from pre-wedding, first dances, toasts, cutting of the cake, and more.

## FEATURED ADD-ONS

Engagement Session - \$475 (weekday); \$625 (weekend)

Wedding Album - \$1,200

## FREQUENTLY ASKED QUESTIONS

### **Q. How does payment work?**

A. There is a 15% downpayment due when we sign the contract and the remaining 85% is due on the day of the wedding. We accept PayPal, Venmo and checks but prefer cash. As noted above, there is a \$50 discount for payments made in cash (disregarding the 15% downpayment).

### **Q. Do your video packages include delivery of raw footage?**

A. No. We record in 4k and the files we end up with are, well, titanic. That being said, we also value accommodation. So if having the raw footage is critical for you, we can usually work something out (and into the price) to make sure you end up with what you need.

### **Q. What equipment do you use?**

A. Our studio uses mainly Sony alpha cameras for photo and a Canon C100 Mark ii for video. We also have wireless microphones, digital recorders, tripods, flashes, a handheld gimbal and much more to play with.

### **Q. Do you work with a second photographer/videographer?**

A. Yes! My main partner is a wonderful videographer (her name is Mandy Wolfe, website: <https://www.wolfevideography.com/>) and I highly recommend booking both of us if you want both photography and videography at your wedding. I can and have certainly been able to deliver my photo and video packages as a single person for those who are working with a tighter budget, but having two people who can each focus on their respective crafts is naturally going to result in better quality.

### **Q. Are prices negotiable?**

A. Somewhat. Weddings can look very, very different, and you may have a unique vision regarding how you would like the day to be captured on a camera. If you have any questions about modifying or fusing packages together, I am more than happy to try and accommodate :)
