

LEAH TURNEY

hi lovely, i'm Leah

*I DOCUMENT THE RAW NATURE OF LOVE -
THE GOOD, THE TRYING, THE TRIUMPHANT.*

*AT THE END OF OUR DAYS,
WE WANT TO REMEMBER
THE TRUTH WE EXPERIENCED,
THE MOMENTS THAT
ALTERED US FROM WITHIN.*

client love

*MY CLIENTS ARE AT THE
CENTER OF EVERYTHING I DO.
MY GOAL IS TO LISTEN, LEARN,
AND DELIVER THE BEST
EXPERIENCE POSSIBLE.*

Kassie S.

Words cannot begin to express how much we adored Leah. She was the best we could of ever imagined. She was so kind and caring and fun to be around. She was so easy to talk to and we just really felt she wanted to make sure everything we did or the photos she captured were perfect. Anything we do moving forward, Leah will absolutely be the one.

WEDDINGS

Every story is unique. That's why I curate custom, tailored packages for each of my clients. My wedding packages start at \$2,800 and have an 8 hour minimum.

FREQUENTLY ASKED QUESTIONS

Q1 / WHAT ARE YOUR PAYMENT TERMS?

To book I require a deposit of 20% of your package. Your deposit is non-refundable and is applied toward your total price on the package you choose. However, if for some reason your wedding is called off you can apply your down payment to another session. The remaining balance is due 4 weeks before your wedding date.

Q2 / WHEN CAN I EXPECT MY PHOTOS?

The worst pain point of my wedding was waiting for my photos. That's why I send out your sneak peek of around 50 photos the day after your wedding. After your sneak peeks, I send out your full gallery within two weeks of your wedding!

Q3 / WHAT HAPPENS IF YOU CAN'T MAKE OUR WEDDING?

I've shot hundreds of weddings and have never missed a wedding day. HOWEVER, I have a vast network of fellow photographers that I know and trust. If for some reason I cannot make your wedding date, I will hire one of them to shoot your day. No matter what, someone will be there.

Q4 / WHAT'S YOUR BACKUP SYSTEM?

I've never lost images! I shoot on at least two cameras, both of which have dual SD card slots. So if there is a corrupted SD card, no sweat because I have the images backed up on another one. After I shoot, I load all of the files on my computer which has a backup hard drive as well as automatic uploading to the cloud. I also keep your original set of SD cards with the images in a fireproof, waterproof safe until your images are delivered. On top of that, I also keep all of the edited images I deliver online and on a SSD storage in my safe.

THE PROCESS
