Frequently Asked Questions

How do I get started?

It all begins with an inquiry. My only request is that you have a date in mind and a booked venue. Some thoughts on colors, maybe a pinterest board, or google collection of images of your floral style are all helpful.

What happens next?

I will provide you with an initial proposal based on our initial consult either in person or via a phone or zoom call with an itemized list of prices and services.

How do I finalize?

After we are all happy with the list. We will finalize and sign the wedding contract. Nothing is final until we have the contract signed. A deposit is required to hold your wedding date. All of this money is applicable to your final wedding invoice. Any changes in flowers will be communicated with you prior to substitutions.

What happens week of the wedding and day of the wedding?

I will check in with you to see if there are any add ons in the final week prior to the wedding. We will deliver and place the flowers at the wedding venue and church. We will leave the space clean and neat if we have any on-site floral designs and installations to complete. After wedding floral clean up and tear down is extra and can be arranged.
