DO YOU DELIVER ALL IMAGES YOU TAKE?

No I do not, I eliminate duplicate images, test shots, missed focus, and shots that do not have good expressions. I do this because I want make sure everything is cohesive and you receive the best images.

WHAT IS YOUR STYLE?

My claim to fame is dramatic imagery. I have been trained how to use lighting and can adapt to any circumstance. However, I ask pointed questions to gain a better understanding on what you are interested in and what you like. So my style changes depending on my clients tastes.

MY VENUE IS DARK

I have shot in many dark wedding venues and reception halls. I also use on and off camera flash to assits with getting sharp images. If your venue does not allow flash photography I also use state of the art photography cameras and lenses that perform well in low light situations.

DO YOU SHOOT RAW OR JPEG?

I shoot in raw. I shoot raw because of my shooting style. It gives me more control over the color, the lights, darks, highlights and shadows. I also shoot raw because I get images that have no processing applied to the image, that way the photos have my processing done to it.

HOW MANY HOURS DO YOU SUGGEST?

This is a frequent question that is very difficult to answer. My suggestion is for at least 8 hours. However, it gets tricky because of the timeline; are you doing a first look, are you doing a traditional timeline? So my suggestion will not come before I get to know you better.

WHAT HAPPENS IF WE GO OVER CONTRACED TIME?

I understand that weddings may go over on the contracted time. Being charged, for me, is a case by case manner. For example, if I have associates working with me, the need to be compensated.

Rest assured, you are in good hands and you will not be disappointed. I want you to sit back, and enjoy your wedding day, and let me worry about the details on your day.

It is my goal to make you happy and make sure that your needs are met.

Joseph*
