

Time Management.

I have experience when it comes to time management of an event.

I will watch the time to make sure everything goes as planned so you don't have too.

This includes the introductions, from the first dance to the last dance of the evening.

I plan for the unexpected

Wedding at times can run behind because of the dinner not being ready, to the preacher being a little behind. I adjust to make sure everything goes as planned.

I am comfortable speaking in front of the crowd, and on the mic

I make all the special announcements for each activity, or event.

This includes the dollar dance, garter, flower, introductions, dinner, and speaking to the crowd when they are dancing I will not over talk the reception, there is a balance on music and making the crowd excited during the dancing.

Music selection for your event

I will get your songs together for your special dances, including songs for your ceremony and reception. I ask for the artist name to ensure I have the right songs for your event.

When it comes to the ceremony, I do extend the songs so you don't feel rushed walking to the preacher. I also ask for 25 songs or artist to get an ideal of what music you like.

Unlike other DJ's, I do take request at the receptions, and I don't ask for a tip when someone ask for a song.

I have a variety of music I play for each event. Texas Country, Country, Latin, 80's, 90's, Top 40, and songs heard on the radio.

Dance Lights

I have a variety of dance floor lights I bring to each reception depending on the layout of the dance floor, and stage setup. I can control the color of the lights with a computer, or

have static lights that are simple. I know a lot of venues in the Hill Country so I try not to take away from the setting of the venue.

Planning and Life made easy

I provide documents to assist during your reception I email to give you an ideal for special dances, speeches, time management suggestions, and forms to assist with your reception.

These documents will help me stay on track, and also something we both review to make sure we are on the same page for your reception and ceremony.

DJ Equipment

I have a professional sound system that I bring to each wedding reception. The equipment I bring to the events will provide you a sound that will fill the room.

I bring wireless mics to the event at no charge. You can use these for your speeches and allow your guest to be anywhere in the room during the special speeches.

Music Videos

I'm one of the few wedding DJ's that has music videos with Country, Texas Country, 80.s music that you can watch on the dance floor as your dancing.

Ceremony Events. I will provide music and a wireless mic for your ceremony event. There is no extra cost for performing the ceremony for your wedding.

The difference between me and the other companies. I am the DJ who would be at your event if I was hired by you.

Please go to djforhire.org for more information, please click the FB link to see more information.

I do not charge for our first meeting, I also do not charge for setup, tear down, or the preparation of the music and wedding.

Wedding Experience

I have over 25 years' experience with wedding receptions, events, and the ceremony. I'm independent, or can work with your wedding coordinator, and other vendors.

My experience, and working in the wedding venues at the Hill Country allows me to know the setup of the venues. I am an awarded DJ from The Knot Wedding magazine, and Wedding Wire.

The total for up to six hours is \$1200.00 This includes everything, coordinating your reception, and ceremony if needed. There is no hidden cost with the quote.
