our special little spot

At the Tillerman, we love people - and we like to make people feel at home. We are an inn restored and reimagined from its 1790's bones and we're all about the small, meaningful details that create sense of place. We embrace the quirks, character and eccentricities of this old beautiful building and we hope you do, too!

Our 125-year-old barn is the center of it all with the surrounding trees, flowers, and out-buildings providing that quintessential rustic Vermont feel. In the summer the gardens are abundant and the swimming hole at the creek is oh so refreshing. In autumn the property teems with apple trees and sugar maples. All we need now is your family and friends to create a celebration that no one ever forgets!

the area

We are nestled just outside the quaint town of Bristol, Vermont. Our historic 18th-century town is remarkably vibrant and lined with cute shops, restaurants, a coffee shop, brewery, art studios, charming houses and so much more. Bristol is known for its warmth and unbeatable hospitality as well as being the gateway to the Green Mountains.

Surrounded by lush woodlands and meandering creeks, the Bristol area is the ultimate natural playground. Dip your toes into the crisp waters at Bristol Falls, a beautiful 14 foot waterfall, just a stone's throw from our property. Enjoy the spectacular views on your mountain or road bike or on foot at one of the many trail heads in the area. You can hit the links with your crew for a round of golf, whatever your activity, we've got you covered.

Countless farm stands, local breweries, apple and berry picking, made-in-Vermont products, when it comes to things to do in the area, you'll have no problem filling your days!

food

Food is everything to us. Supporting local farmers, makers and cultivators is paramount to what we do as a business. We make decisions with our community, the environment, and our own integrity in mind and hope our guests embody the same philosophy.

Our preferred service style combines elements of live action cooking along with a large self-serve table where guests can serve themselves from a beautifully designed and bountiful display of foods, artfully plated and presented, that highlights the meticulous sourcing and preparations that are the benchmark of The Tillerman.
