SIMPLE PACKAGES

Simple packages are smaller and focus on the basic, most traditional wedding florals. This most often puts a focus on flowers that are worn rather than those that are used as decoration.

Think of them as the essentials—ideal for those who are planning a courthouse wedding, elopement, or prefer a more pared-down style.

SATNDARD PACKAGES

If decorating your venue with flowers is a priority, while also sticking to a budget, start by looking at standard or middle-tier packages. These will not only include worn flowers, but also decorative pieces like ceremony arrangements and centerpieces. This is the most commonly purchased style of floral package and creates a cohesive look..
