# HEY THERE, *I'm Ruthie*

## BEHIND THE CAMERA

Hey! Thanks for reaching out, and checking out my wedding guide. Here's a bit about me: I'm a coffee-loving photographer working in southwest Florida and Nebraska who absolutely LOVES her job! I started photography in high school as a hobby and eventually this passion of capturing people's joy grew into a business.

Wedding photography is my passion, because I get to witness couples choose each other forever, which is such a beautiful thing. As a wedding photographer, my clients and I get to choose each other, which is unique. Because of this, I'm sharing how I work, so we can both make the best decision. So here's me:

-I'm GIGGLY. If you're laughing, I'm laughing. My clients say I never stop smiling, and it is completely true. I love my job.

-I am organized. I like to get a timeline for your day set up so I can best capture your day.

-I'm your hype girl. Seriously. I get really excited with my couples, and will not hold back with telling y'all how cute you are together/ how good you look. Someone's gotta say it!

And lastly, I'm here to serve you. Your love is so special, and the whole reason I'm in this industry is so that you can have memories that last forever.

I'll be at your wedding with a latte in hand, ready to capture the beauty of your big day. Never doubt that I will be hyping y'all up the whole day, and becoming besties with your friends and family. On your weekiversary of being married, you'll get a sneak peek! Then, depending on your package, you'll get the whole lot of them between 4 and 6 weeks. ## *Love Notes*

We could not be more happier with having her photographer our wedding-the most important day in my life. Ruth is prompt, professional and such a joy to have around. She is always smiling and not to mention her work is beautiful.

*Hera + Donald*

She was so comforting and the photos that she gave us are beautiful! We would book her again in a heartbeat. Ruth was so kind and professional. We both felt so comfortable with her and loved her different strategies for capturing the right photos. We also were able to ask questions before and during the shoot which helped to ease our nerves as well.

*Allie + Jonny*

I love that she captured our personalities and let us be ourselves while also giving us some advice and poses to get some great candid.

*Kaitlyn + Zach*

*Thank you!*
