# THE *Wedding* EXPERIENCE

MY PHILOSOPHY | I'm sure your mind is racing with all that needs to be planned. It's all very exciting but it can also be somewhat overwhelming. You're planning the day that you've been anticipating your whole life and yet you only get one shot at it! By the time you get the hang of it, the planning is over! My goal as a wedding filmmaker to make this one aspect of the planning process simple. Videography is more than just images, it's a real part of your day. Not only do you deserve beautiful images and audio, but you also deserve an amazing filmmaking experience. When my couples feel comfortable and relaxed in front of the camera, that results in genuine, joyful images! Being able to look back 20 or even 50 years from now and be able to still feel the emotion of that day is huge! These are the moments that will stand the test of time and you'll be able to share into future generations. Being able to see and hear the voices of precious loved ones that are no longer with us. These memories are priceless to me. Your wedding day is an experience from beginning to end and your wedding film is a huge part of that experience..... shouldn't it be fun? and enjoyable? and natural? I think so! My goal is to not only capture memories for my clients, it's to create an experience that you will never forget.

THE PROCESS | One way that I ensure that my brides and grooms enjoy the BEST filming experience possible is through forming a relationship with my couples. I try my best to make sure that each couple is the PERFECT fit before officially booking. A bride and groom should connect with their videographer, trust their videographer and be EXCITED about the whole process with them! After booking, I love getting to know my clients through an initial phone call or video chat, followed by a series of personalized questionnaires, and when we can, I enjoy doing in person consultations. You can also choose to do an ENGAGEMENT SESSION that helps warm you up to the camera so that we are ready to rock and roll on the wedding day! By the time the wedding day arrives, my couples feel more like friends and that creates a safe and relaxed environment for getting amazing footage! I can walk you through all the available options and decide if we will be a good fit for each other. Now that you know a little bit about my approach to the wedding day, you can continue reading to find more detailed information about THE WEDDING EXPERIENCE!

## W H Y   I N V E S T ?

Your first decision as an engaged couple is to set priorities for your wedding planning. You have to decide what you value most. Is it the dress? The food? The venue? But at the end of this fabulous the day, all you will leave with is memories, and your lover! I believe that's why couples should consider making photo and videography a top priority! Wedding video is not a luxury item, it is *essential*. It's being able to watch and hear the voices of our parents that may no longer be with us. It's the love story that's way too good to not be told. It's a way to look back on all the emotions, to feel the love of you had for each other that day and to see how much it has grown so much over the years. And it is the perfect ending to the Wedding Experience, a keepsake that you will be showing your children and grandchildren one day!

## ASKED QUESTIONS

### E L O P E M E N T S :

I am more than willing to travel for elopement sessions! I actually love it when couples ask me to film them in a location that means something special to them! I can also assist you in finding the best possible locations for your special day if needed and help you plan all the logistics involved. So let's adventure!

### D I G I T A L   F I L E S :

You will have access to a Personal Online Video Gallery that allows you to easily watch and share your films anytime from your smartphone, laptop or TV. You will also receive a hard copy on USB flashdrive. I believe in being able to freely share each film because that is what I would want if I was in your shoes! So you will get YouTube and Facebook video links included as well

### D R O N E   F O O T A G E :

I'm often asked if I fly a drone, and is aerial footage included? The answer is, YES! These shots are absolutely stunning and I always offer that with each film... when I can. This will always be based on weather conditions, location, and time. I operate with a FAA Part 107 Remote Pilot License and will only fly when flight restrictions allow and if I deem conditions are safe for flight.

### M Y S H O O T I N G S T Y L E :

I love being both interactive and discreet throughout the wedding day. There will be parts of the wedding day when I will need to be in control in order to accomplish everything that needs to be done while staying on schedule. There will also be moments when you shouldn't even know that I'm there. (The ceremony, during dances and toasts, etc.) I teach my couples how to just be relaxed and interact with each other during their engagement session so they are naturals on the wedding day and don't need quite as much instruction from myself... or your photographer!

### B O O K I N G :

Once I have answered any questions you may have and you have decided that our Wedding Experience is exactly what you're looking for on your wedding day, the next step is a booking proposal. I will create an online proposal that will walk you through the package and when you're ready you can save your date by signing your contract and paying your deposit online.
