

WEDDING PRICING

- **Prep work:** There's a lot of preparation that goes into making your ceremony a success. I will meet with you before your wedding to craft a ceremony that's unique and meaningful to you, whether that means including religious elements, family traditions, readings you like, and more. Creating a ceremony plan takes at least three to four hours, not including edits and communication with you. If you're writing your own wedding vows I can assist you with that as well.
