TIP: The 'right' band is the one that feels different.

Comparing bands is hard. You find yourself thinking: "Lots of bands sound good - what makes one band better than the other?" And in the end you just wind up comparing by price.

***But you shouldn't settle for the cheapest band. You want the BEST band, right?***

The trick is finding something SPECIAL. Because when you blow your guests' minds with a truly unique experience - something magical happens.

## Forget everything you knew about event bands.

We are redefining the live entertainment experience. See, every pro band sounds good with enough practice.

You've heard the other bands. I'm sure they sounded good... But I'll bet every song sounded like the same singer just changing the lyrics, am I right?

**Here's where The Ever After Band takes it up a notch.**

This is true versatility in a way no other band can achieve.

**LISTEN FOR YOURSELF!**

"The Ever After Band was hands down the most exciting, rewarding, and special part of our event - and the best decision we made. From the moment we ended our first call with Rich, my husband and I looked at each other and said 'so, obviously, we're booking them, right?'"

- Lisa & Anthony
