Choosing Menu

Full standard menu

Do you have a smaller party (40-70 guests) or not worried about budget costs? Then we recommend the entire standard menu. Having the variety will really wow your guests. Final food costs will ultimately be based on consumption up to or over minimum requirement.

Pre-select menu

Have a larger party (75+ guests) and/or you have a budget? No problem, we recommend this package for you. We can create a per person cost and menu. Example: \$12 per person everyone receives 3 tacos. The key is to provide enough variety within the select menu so guests don't even notice the limited menu. It's a win win situation for all!

Special note

Full standard menu for catering on the food trucks is what is on the side of the trucks (PDF attached in email). This is not the same as the menu that is highlighted on our website. If you wish to have any specialty request items, just let us know during the planning stages so we can accomodate your request!
