OUR TEAM

Paul Boone
Owner, Client Manager

With 30+ years of experience, he has watched video technology progress tremendously, yet the love he acquired in the early 90s for preserving memories has only grown deeper. Having worked weddings, a variety of events, and live productions, you'd be hard-pressed to find a venue that he hasn't turned into a lasting memory.

Benji Boone
Director, Lead Videographer

His love for music and film allows him to create a depth of emotions that one might not even know existed. Since the sixth grade, he's filmed numerous weddings and events, and has even worked on live productions. However, while his passion for film is strong, music has and will always be a significant part of his life.

Caden Bunch
Videographer

One might characterize him as having a unique eye for filmmaking. When he was brought on as a part of the team in 2019, his natural ability, which has already shown in a variety of productions, was made evident once again. Alongside film, he has a strong love for listening to and playing metal music.

Corban Garcia
Editor, Streaming Producer

For his age, he is years and years ahead of the game in both knowledge and experience. This includes weddings, live productions, and more, though he excels at writing screenplays. When he isn't too terribly busy working, you might catch him recording a podcast or strolling around Dallas on his personal scooter.
