

*Thank you so much for taking interest in booking me for your big day! I offer photography and video if desired. I have a 5-7 business day turn around on all photos in high-res quality being fully edited from wedding day. If you are looking for just Photography, I offer it at \$2,000 for 8-10 hours of my full service and that includes me arriving early to acquire any getting ready photos or anything that is desired by you to capture that perfect day (I am here to meet your needs) wedding, reception and any exits that are planned as well, along with the fully edited photos returned to you within 5-7 business days (majority of the time it's only 5 haha 😊)

*If you are looking for a more extensive package, I am happy to accommodate that as well.

*I offer a middle Photography package at a cost of \$3,000. It includes everything stated above as well as any 1 day before or 1 day after photos that you would like to obtain with your loved one to capture those perfect moments prior to the big day or after the big day!

*Now, if you are wanting to obtain a photography and video package all in one it would start at \$5,000 for everything stated above for photography along with getting video footage of the entire event curated into a beautiful "highlight reel" of your big day!

*If it is outside of local travel for me (outside the state of Colorado) there is a surcharge of \$1500-\$1800 depending on location added to each package listed above. *No Refunds/All Payments Are Final

Again, I can't thank you enough for taking interest in booking for the big day. I hope this answered a lot of your pricing and package questions. I look forward to hearing back and to potentially capture every magical moment on your big day! If you have any more questions, please do not hesitate to ask.

-Blake-
