

Pricing & FAQ's

Your questions answered

How would you describe your style?

Starting my passion for photography with film, I continue to lean towards a very filmic style to this day. I like to focus my compositions on dramatic light to help convey a mood. I take charge and pose when I need to, but love the opportunity to capture those precious candid moments. I will do my best to make your images natural, stunning and timeless. I don't follow fads and over edit my images, they are real moments, with real people on one of the most magical days of their lives.

Do you shoot destination weddings?

I do! Bags are packed where are we going? I travel within the United States and travel is subject to scheduling and availability.

Can I extend the session on the day of?

Yes, in most cases I can do extended coverage. I'd be happy to discuss the details with you.

What kind of gear do you use?

I use two Sony A7III's with dual memory card slots for digital. For my film work I use an Olympus OM-2N and Nikon F 35mm.

Do I have to order prints through you?

No, I offer my printing recommendations but part of my pricing structure is to include print rights to my clients so they can order on their own.

When will we get our photos?

You will receive an online gallery link in your email that is password protected and downloadable with a provided pin. For most weddings I quote 4-6 weeks. With Film add-ons delivery can take longer. For most engagement sessions 4 weeks or less is typical.

Did you know?

When you book a wedding with me I will donate \$75.00 to a local animal rescue. I have a list of rescues I support under my charities/donations tab on my website if you'd like to check them out and show them some support.
