LUNAR
LIGHT PRODUCTIONS

Intro

Hello,

Thank-you for considering booking with Lunar Light Productions. We are a husband and wife duo that offers both photography and cinematography. We know that no two couples are the same which is why we work on creating a custom package for each of our clients. Our custom packages are how we create what you are dreaming for your wedding, day, and we specialize in curating and creating what you dream. The best part of booking with us on your wedding day is allo us to use our photography and cinematography to tell your love story.

About Us

Our names are Priscilla and Chris Schultz. We live in Riverside, Ca. We travel all over the world to document and tell the stories of our amazing couples. We love the art of storytelling, and we use our cameras to tell your story through our unique perspective. Chris has a bachelors in neuroscience, and Priscilla has a bachelor's in geophysics. We both decided that we didn't love what we were doing, so we decided to do something different. We chose to open our own wedding business and serve the people around us, and we love every second we can serve our couples to have less stress and more fun on their wedding day.

● We love to adventure and explore. We love hiking and being outside.

● We love to eat as well as to try new things. We both love sushi and pasta.

● Family time is the most important to us, and this is one of the main reasons we decided to start our own company In this industry.

Photography Packages

With all of our packages we offer all day coverage to eliminate the stresses on our couples of having to figure out how many hours you would need covered or trying to shove as much as you can in a limited time frame. In offering all day coverage we get to focus on capturing your entire wedding day from the start of you getting ready to the dancing and festivities.
