INVEST IN A LIFETIME OF MEMORIES

Photography is a big investment. It's one of the main expenses in your wedding. It's worth it. You should have a well documented and intimate retelling of the most important day of your life. You aren't just investing in pictures from your wedding day when you book me; you're investing in heirloom images you'll look back on for decades. Don't settle.

One of the things I pride myself on as a photographer is really getting to know my couples. From the moment you book, I'm working hard to find the essence of who you are, both as individuals and as a couple. By getting to know you, I'm able to connect aesthetic pre-planning with a spontaneous documentary style. This gives you the best of both worlds, allowing me to capture both thought-out images and the unforeseeable moments. I didn't become a wedding photographer so I could provide you with a few hundred generic images. Your pictures will reflect your personality, your style, and your love story. Your wedding won't be like anyone else's; I think your pictures should be just as unique.

ABOUT ME

I photograph weddings for one reason: I'm in love with love stories. When it comes to your wedding, above all else, I approach it as a storyteller: documenting moments, capturing the emotions of one of the most important days in your lifetime. I emphasize the authentic. Timeless, classic, true; I aim far more towards showing your connection and love than any current trend in wedding photography. In 30 years, I want you to look at your photographs and feel the same way you did at the wedding. I think you deserve photos of your love story that are as timeless as your love.

ABOUT YOU

This is your wedding. You're in love with your best friend. And together, you want something different, new, and you.

If you're reading and thinking 'this is us' on most of these; then I think you're in the right spot.

- You realize this is your wedding day, and it should be full of the things that make you two 'you'.
- You want to relax and have fun on your wedding day.
- You don't want to feel awkward and posed, and would rather enjoy your new spouse than look at the camera.
- You appreciate both the beautiful and the spontaneous moments in photography.
- You would be excited to spend some quality alone time with that person you just married on your wedding day.
- You want to have time to laugh and party with all the people you love who came to the wedding.
- You want to stick to cliché traditions and make some new ones.
- You make the choices for your wedding based on your personalities.
- You want photos that tell the story and document the best day of your lives.
- Because this day is about you and your love.

My work tends to best fit unique couples; those who are brave enough to be themselves, don't follow the rules, and who want to create their own traditions. If that's you let's do this.
