

John Kopko
Wedding Filmmaker

Hello! My name is John, and that's me filming in the photo above. Congratulations on your upcoming wedding, and thank you for taking the time to check out my business. As an independent filmmaker, you'll work with me all the way from booking to final delivery of your footage.

I absolutely love telling wedding stories with my camera. It is so humbling to share these amazing, once in a lifetime experiences with couples.

My goal is to create something you will love to watch for years to come.

Look through this brochure to find all my booking options. Let me know if you have any questions!

Meet the Team!

Here's me again with my wife (as of 12-19-20!) Emma. Like I mentioned above, you'll work with me through the whole process.

Our pup Wilbur. He'll proof all your footage before delivery to ensure it meets our high standard.

Frequently Asked Questions

Do you require a retainer?

Yes, I require a 25% non-refundable retainer to secure my services for the day.

Our wedding prep, ceremony, and reception are in different locations. Will you come to multiple locations?

Yes! My Ford Focus is gassed up and ready to go!

How do you choose music for highlight films?

I use the music licensing services MusicBed and Artlist to choose a song(s) for your film. This ensures that all music in the film will be free from copyright violations, allowing couples to share the film on social media and other online platforms. I consult my couples on their music genre tastes, and then find a song that aligns with their preferences as well as the mood of the day.

How long does it take to receive our footage?

While this often depends on the number of weddings on my calendar in a specific month, I typically deliver final footage within 4-6 weeks of the wedding date.

Can we share our footage on our social media pages?

Yes! Share as much or as little as you like!

What professional gear will you use to film our wedding?

To start, I use Sony mirrorless cameras. Sony cameras are known to have great image quality and low-light abilities, meaning your footage will look great in all conditions. For audio I place a microphone on the groom and the officiant to ensure vows are recorded in high quality. If your reception venue is dimly lit, I'll use small portable lights to help capture your dances and toasts.

What is the benefit of having a second videographer?

A second videographer is a big part of a great wedding film! Having two videographers means more footage and more angles of all your special moments.

"John completely amazed us with the quality and value of our wedding highlight video! He was so easy to have around all day, collaborated well with the photographers, and truly caught authentic, unposed memories from the day that we will cherish forever. We initially hadn't planned on having a videographer for our wedding due to our budget, but we are so delighted that we now get to relive the greatest day of our lives whenever we want. We truly cannot praise his work enough and highly recommend him to anyone! Thank you, John!!" -- **Rebecca & Rylan Prafke**

"John was a blessing to have on our wedding day! He responded right away, worked with our timeline despite it being last minute, and went out of his way to give us a beautiful video of our wedding. We loved the way the video showcased our day. It truly captured the essence of our wedding. I would happily recommend John to anybody in need of a videographer." - **Raelynn & Trevor Tank**
