

Luxury Engraving & Brand Activations

Bring your event to life and create a customized experience with modern calligraphy. Together we can create a one of a kind and unique experience at your event by personalizing a keepsake to take home, thus making a lasting impression, long after the event is over!

Intro to Calligraphy Classes

Add a fun intro to calligraphy class to your offsite or conference. We will focus on the basics of brush lettering and practice forming and connecting beautiful letters to create even more beautiful words.

Custom Calligraphy Products

Custom calligraphy place cards, gift packages and personalized items can be ordered in advance to set the tone for your event. I'd be happy to dream up new concepts that are feasible in a fast-paced event.
