STATEMENT

Bouquet of Fireworks is more than just a videography and photography company.

We are curators to the best days of our lives. We are fishers of lightning, roaming the skies and bottling up your memories, tidying them up, making them presentable, and then gifting them to you.

We are young, but that does not make us inexperienced, but rather open to new and exciting ones. We think differently about how to look at events. We are art school creatives, attending the best institutions this country has to offer and absorbing anything and everything. And we gift our knowledge to you, to give you clearest memories, to give you tears and smiles and hugs and laughter for you to keep forever.

We are growing every day, but so are you, through these moments, and so we'd like to not just grow with you, together, but to be able to look back on how joyful it was to experience what life has to teach us.

We are Bouquet of Fireworks.
We are more than just a media company. We are curators to your Life's Biggest Moments.

ETIQUETTE & ADVISEMENT

WE WOULD LIKE TO TAKE AN OPPORTUNITY TO CLEAR UP ANY UNCLEAR TERMS OR EXPECTATIONS BETWEEN US AND THOSE MAKE OUR MEMORIES WITH.

*Raw Footage- This refers to the unprocessed footage that we take throughout the day. Access to raw footage means that you get the raw MVI or MP4 files, that are not edited or processed through any software.

**Travel- We travel all over the country and, hopefully, internationally for our work. As former NYU alumni, we have excellent artist friends throughout the nation and are happy to bring any of them on board to work with us. That said, to be fresh and well prepared, we request a travel stipend to cover the cost of travel, if not at least partially. We typically drive within 400 miles, and fly anything further. We use Airbnb for lodging and typically go cheap. We do not have a set price for numerous reasons but are always happy to discuss and talk about it so both parties are happy.

Copyright- Most of our contract is copy-right material and when to expect one's final product and that whole process. Copyright basically means that although you can

distribute your wedding video however you want, you, or anyone else, cannot use any of it for commercial purposes. Also, we are allowed to use it on our social media for advertising.

Highlight Film- A highlight film is a short film of 2-3 songs (6-12 min) that will go through the day's major events, primarily in chronological order.

Short Film- More documentary style, a short film is 20-40 min film, has more of the ceremony, toasts and interview footage.

Drone- Included in all video packages. Will not fly if I deem the situation unsafe to the venue or the equipment.

Edits- You get one major edit request included, meaning if you are unhappy with a section or want to add certain things you think are missing. We advise you make all suggested edits in one request. Editing takes a lot of time, and so we cannot continue to revisit one fil
