Hello! I'm so glad you're here!

Film is such an important component to capturing your big day. Photographs capture a single moment in time, one frame that tells a story.

Wedding films have the opportunity to tell the story from beginning to end. They can capture the giggles, the kisses, the sweet moments throughout the day that

you may have missed. The big day will fly by in the blink of an eye-and you won't regret having a beautiful film to share and cherish.

A documentary is meant to capture the authentic story as it unfolds.

I am incredibly proud that, aside from the fantastic work of my second shooter, Molly, the entire journey of creating your film is helmed by me. Hours are spent selecting JUST the right music, those perfect shots that make your heart sing, color-correcting and cutting. I love filming, but I am also in love with bringing the story to life! And you can see the difference, with each beautiful story that I get the honor to tell.
