

Our Approach

Our approach is simple. We like to keep things light and create an enjoyable experience. We understand that not everyone feels comfortable in front of a camera, so we will help you every single step of the way. Our goal is to be one less thing you have to stress about, because you *know* we've got you covered.

When it comes to editing the events of the day, we leave it to the basics by editing the footage seamlessly between 2 camera angles...but with our highlight videos, we get to tell *your* story. We want your highlight video to feel cinematic and dreamy. Even the music we choose is meant to evoke emotion in you. We believe that it is important to keep your story authentic, so while your highlight video will have those epic shots, it will also include all the important parts of your wedding day. We want to capture it EXACTLY as it was and then edit it into something that holds onto those memories for years to come.
