

Facility Rentals 2019-2020

About MOXI

Our mission is to ignite learning through interactive experiences in science and creativity. As Santa Barbara's newest hands-on destination for families and curious minds of all ages, MOXI is a place where you can explore and discover new things about the world around you, ask questions, seek answers and have a blast doing so.

MOXI started as a dream more than 20 years ago. A group of dedicated and dynamic community volunteers came together with the desire to create a world-class museum in their own backyard that would provide opportunities for learning outside the traditional classroom. Our Barry Berkus-designed building also has the distinction of being the first LEED Gold certified museum in Santa Barbara County.

Our Opening Day on February 25, 2017 was the culmination of years of work by a determined and tireless group of community volunteers, supported by countless individuals, businesses and foundations from the Santa Barbara region and beyond. It was, however, just the beginning of something far greater – delivering on our promise of igniting learning for all through our exhibits, programs, community outreach and more.

About the Venue

MOXI, Santa Barbara's newest museum is available for private parties, business meetings, weddings and more. Treat your guests to the unique experience of a celebration amongst our interactive exhibits or simply one of the best views of the city from our rooftop Sky Garden. Create unforgettable memories. Create your very own MOXI moment.

Keep in mind that guest capacity varies based on how many people you want in a given space – it can range from 50 guests (intimate seated dinner reception in our rooftop Sky Garden) to 500 guests (open reception throughout museum). Food/beverage/rentals/lighting will be organized by the client.

All proceeds from facility rentals go to support the non-profit educational mission and programs of MOXI.
