Bronze Package

Our bronze package is video of the ceremony only. We use two camera angles and record the audio from the event. We provide light editing and can make the video available on Blu-ray, DVD and computer file.

Cost: \$1,000

Silver Package

Our silver package includes everything from the bronze package, plus up to three hours of reception coverage. We provide a lightly edited documentary cut of the highlights of the reception.

Cost: \$1,500

Princess Package

The Princess Package provides comprehensive coverage of your special day, including up to eight hours of shooting from two camera angles before, during and after the ceremony. Adam will shoot video of the groom and groomsmen, and Lisa will shoot video of the bride and her bridesmaids. We use additional cameras during the ceremony to fully capture the event. We also shoot the reception activities. The package includes the edited ceremony, a lightly edited "documentary cut" of all the day's events and a trailer cut — a short, fun video that includes the highlights of the day.

Cost: \$2000
