

Our Goal is Simple

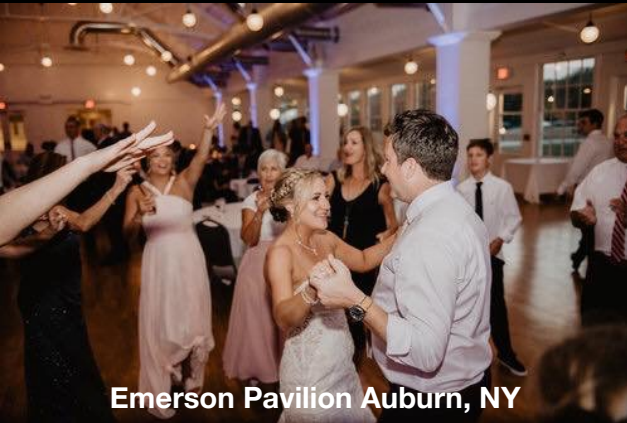

We provide completely Customizable Services. Not every couple or venue is the same which is why we tailor every event to the specifics of our individual clients and their facility.

Everything we do is full service meaning we act as your master of ceremonies and host of the event. We coordinate all your formality dances, itinerary and announcements. We act as a liaison between the facility/catering and your photographer, by always anticipating their needs. This level of coordination is always part of everything we do and something we have come to be known for.

The same level of detail goes into the music played. We encourage couples to create Playlists & Do Not Playlists so that the music is a reflection of them. All Planning can be done by utilizing our wedding planner form on our website.

Reception DJ Services

\$1950

Emerson Pavilion Auburn, NY
