The Barn

THEOLDGRAYBARN.COM

The main entrance of the barn opens to a hallway with separate rooms for each wedding party to get ready privately. The bridal suite includes a huge beauty bar with great lighting, large mirrors, and a private bathroom. The groom's room has space to relax and play with a dart board and a mini fridge. The end of the barn hallway opens to the rest of the lower level where you will find the custom-built bar area and stairs to the reception area. The bar has a large four door refrigerator and a full-size freezer. The main reception area immediately follows the staircase.

We provide a custom built head table for you and your wedding party. You have the choice of the color of linens and round or circular tables with our white chairs. On the back side of the barn, there is a large back deck with twinkle lights throughout. There is a lush backyard ready for yard games and sparkler send offs.

"The views from the back deck are breathtaking!"

The Woods

A beautiful sight to see!

Let's set the scene. We transport you and your guests down the lane along the wide open field back to the chapel in the mystic woods. You travel down a grassy path to gorgeous custom built doors for your big reveal! The doors open up to the ceremony site where there are twenty custom live edge cedar benches for your guests.

The chapel in the woods is built to blend into its surroundings, highlighting the beautiful couple in the middle! When the ceremony is over, you can enjoy a few moments alone or getting photos in the private area past the rope swing. Your guests will be escorted to the barn so the party can begin!

No matter the time of year, the woods are a jaw dropping setting for your wedding day!

"In the woods,
everywhere you
turn is a special
spot"
