WHO ARE WE?

ABOUT US

Life is made up of millions of moments, but only a few change the direction of the whole story. You'll talk about those moments for the rest of your life - about the knots in your stomach before you saw your loved one on THAT day, about the time you swore your heart was going to burst while prepping for the big "I do's", and the friends and family that were there sharing it all with you. We are there to document those moments - the deeds and adventure that you are undertaking in your epic story.

Since 2009, our small team has fulfilled our big passions for art and storytelling by documenting over 1000 weddings. Though we've won dozens of high profile awards from publications like weddingwire.com and theknot.com (like the highly coveted "knot.com hall of fame"), and have been featured on hit tv shows like "Say Yes to the Dress" on TLC, each wedding is a new adventure. We love capturing the candid expressions of tears of joy, laughter of excitement, and every emotion in-between that you are able to accurately relay through photos and films to your kids, and to their kids too. And yes, it was just as amazing as you thought it would be.

All you need is an Epic love story, and we are the storytellers.
