

YOUR INVESTMENT

Boudoir photos are more than just taking pictures. They are an investment in the art and sensuality of a beautiful woman. They are a gift from a woman to that someone special in her life. Something that is very personal and considered private and shared only between two people. What a gift for that special someone, a gift they may never suspect but something you will both have to share always.

At Sandra Phifer Photography we believe in preserving the privacy of each and every client's investment. That is why we offer little black books or folios that can be kept away in a drawer. After the session we have our clients come into the studio to make their selections in an effort to keep the images that were created private.

Our goal is to pamper each and every person in the hopes of bringing out their inner sensual tiger. Each session is not just for the guy but can be a great way for a woman to feel absolutely gorgeous and pampered like a movie star.

Suggested Outfits

We encourage every woman to wear what makes her feel sensual. Lingerie is a good place to start along with fabulous sexy heels. For a 1 hour session we recommend 2 different outfits. It might also help to sit down with us to discuss different things that might help make this a phenomenal session.

MAKEUP AND HAIR

We highly recommend that each person have their makeup done by our makeup artist. We would also suggest having hair done by a professional, but that is something we leave up to you. Hair is something that many women are able to do on their own, but makeup done by a professional makeup artist will bring out your inner diva.
