Our Approach

We are known for our inspired designs, but our commitment to our clients is paramount. We gain your trust (and friendship) to create and build the wedding you didn't even know we could dream up.

We believe in loving our clients with a big heart, and serving exceptionally well. The logistics and seamless execution are just as important to us as creative design. From timelines and budgets to floral appointments and tastings, we'll be there for each moment along the way to ensure your day is more than you've ever dreamed of.

Shayna and Erica have a background in luxury hospitality. More importantly, their decade long friendship allows them to work with a synergy that cannot be taught or duplicated.
