the month-of

Starting a month out, we take over everything you have planned and create foolproof timelines for each vendor involved. Ensuring everything planned makes sense, we tweak what needs alteration and finalize all elements. From corresponding with everyone part of the big day, coordinating the rehearsal and seamlessly executing the ceremony and reception- from setup to lights out!

design + decor

We'll make sure the event looks + feels amazing!

Design + Decor is ideal for couples who want a bespoke design for their wedding. This service begins as soon as the main elements of your wedding have been locked-in (venue, catering, any wedding elements that requires a "setup"). We work with vendors to ensure you're getting the best deal on all design + decor elements. We take pride in thinking outside the box to create a one-of-a-kind design that is sure to WOW your guests as soon as they enter the space!
