

Thank you for considering me for your big day! In my 15+ years as a professional musician I've played thousands of shows, including well over 100 weddings. I love playing weddings because each one is unique and possesses it's own exciting challenges for me. Your wedding music should be a reflection of who you are, both as individuals and as a couple. My job is to use my skills to represent you in the best way possible.

Planning a wedding is both fun and stressful. My goal is always to keep as much stress out of the process as possible. I like to be the full package: live music, DJ, sound reinforcement, lights, etc. While I can absolutely play just your ceremony or cocktail hour, offering all of these services as one package means I'm the only person you have to communicate with. Whether we meet in person, virtually or over the phone I'll be ready for your questions and have tips and suggestions to help you in your planning and I'll be available to you throughout the process should any questions, concerns or changes arise.

"We had no idea how to approach our wedding music, but he made the process so easy for us. Phil met with us to learn more about our tastes and helped outline for us what we needed to pick for the ceremony and reception. He worked directly with our venue on logistics which took a lot off our minds. The transitions, timing and flow of the music felt seamless. The live music was exactly what we had in mind – we loved it – and the DJ portion was so fun."

-Annie and Jason, May 2021
