How we work

Weddings are special and emotional. They are unique moments crafted with couples wishes.

With these sentiments, proposals are unique to each couple.

- 1) We consult to learn your wishes.
- 2) A Proposal is Offered to you
- 3) Plan is created with working timeline
- 4) We work closely with vendors to create an amazing day for you.

Platinum Love

We were so glad to have their help with our wedding! Months before the wedding they worked with my wife, from the small details that made it come to life, to the key items like the centerpieces, the final product came out better than imagined when translated from ideas to execution. They were a huge help in finding and acquiring what we needed to not have to settle for "close enough". Once it was time for the wedding, their help with the final details, walk through, and arrangements made life so much easier and even brought up helpful things we hadn't thought of. So glad to have their help through it all and would readily recommend them to someone who is looking for calm, collected, and capable throughout the process of their event.

Thanks so much!
