WHY TAKE DANCE LESSONS TO PREPARE FOR YOUR WEDDING?

- Enjoy quality time with your partner during the busyness of wedding planning
- Most people prefer feeling awkward with their dance teacher while learning, rather than feeling awkward dancing with their partner for the first time at their wedding
- It's fun! (Even if you have your doubts, I promise I'll make it fun...)
- Most couples say it's actually their favorite part of wedding planning
- Make this a special moment at your wedding and show off your personality as a couple

Rachael and John, Love Springs Studios
co-owners, dancing in the home studio

"Rachael is the best! My husband was dreading our first dance at our wedding, so I scheduled a few lessons so we'd both feel more confident. After the first lesson he was actually asking to practice our dance and later he asked me to schedule more just so he could learn more dances! Rachel is so patient and so good at breaking down complicated moves to make dancing feel easy."
