

## What's the cost?

### WEDDINGS:

Paradox Productions offers a peace of mind solution for your audio and entertainment needs. Wedding pricing starts at \$2,000 for everything you need, including MC/DJ, multiple sound systems (*as required*), and no time limit. *That's right, we will rock the party until you tell us to go home!*

### EVENTS:

Paradox Productions offers corporate DJ services to select [Profile Partners](#) as well as private celebrations for individual clients. Corporate clients usually invest \$2,500 – \$3,500, while private parties start at \$1,000.

Check availability and request a quote [HERE](#).

## Why are you not cheaper?

While Paradox is likely not the least expensive option amid an ocean of DJs, we are possibly the most cost effective and value driven DJ experience available for private events in the Pacific Northwest.

Our price is not set by what others may or may not be charging. It is determined by balancing premium talent, state-of-the-art equipment, responsive customer service and sharp professional etiquette, with consumer demand and sustainable objectives.

While the value of working with Paradox is heavily weighted toward talent and less on raw commodity materials, some team members have invested over \$100,000 into the equipment that will be provided at your event.

This is not a flex, but an assurance that we are dedicated to providing a high quality audio-visual experience. Essentially, our price is the minimum required for us to fulfill our customer promise of only giving our best work.
