OUR PRICING GUIDE

I want to create photos that are honest, intimate, and real. To capture the love that exists between you, and capture all the emotions and connections of the day.

And those moments can't be rushed.

Choosing a wedding photographer takes some time. Our personal decision was based on a few things: style, price, and trust. I've tried the hourly packages, and it doesn't work for me as your photographer because I want to tell the story of your day through photographs – not just take pretty images. And honestly, hourly packages doesn't work for many couples because they'd have to choose what doesn't get captured.

So, I got rid of them.

story driven

No hourly packages.
Just your wedding story captured
from beginning to end.
One simple package.

artful processing

Treating each of your photos as a work of
art. I hand-edit for optimal exposure, color,
and tone. Your photos are never outsourced
for editing; each of them remains in my care
from capture to completion.

trust

My philosophy on weddings...
Leave the worrying for another day,
roll with whatever may happen,
and know that I'm going to be there to
capture your moments.

one simple package

All-Inclusive Wedding Day Storytelling

Because wedding days are big days to start even bigger adventures. Because wedding days are not just the portrait session portion of the day, but the quiet moments of the morning while getting ready, the anticipation of seeing each other the first time that day, the looks you exchange across the room, and dancing like nobody is watching...

My pricing is simple. It includes the following:

- Full event coverage
- High-resolution edited jpeg images
- Online Gallery for sharing, viewing, and downloading
- Print & Share Release

\$2549 + tax
