There is no place more beautiful than the Finger Lakes, and we are excited to bring a destination to the community where people can come together to enjoy each other, laugh and sip delicious artisan spirits.

The venue also offers a tasting room with seating for 84 inside, a wall of full glass accordion doors that open to an outdoor balcony that seats 60, all with spectacular scenic lake views, and is well appointed with a full bar, whiskey barrel sinks in the restrooms, a viewing window of the still, and an aged tin ceiling that sets the space apart from others.

The new 4992-square foot Finger Lakes venue features a state-of-the-art distilling room that is highlighted by a custom-built, 500-gallon copper, two-stage hybrid pot still/ reflux column still from HBS Copper, the commercial division of Hillbilly Stills in Tennessee.
