

About Our Services

When family and friends want to be part of your event but can't join you, live streaming is a perfect method to share your special moment with them.

How It Works

1. Site Visit & Test
2. Setup
3. Go Live
4. Replay & Download

Even our basic package includes a professional camera, a portable computer, and a unique link for your event on Vimeo.

Site Visit & Testing

Prior to your event we will visit the event site and coordinate with the facility on how best to connect to the internet. We have many options for cables and hot spots if needed.

Setup

At least 2 weeks prior to your event, we will create an “unlisted” event on Vimeo and share your link with you so you can tell your family and friends. The event will remain on Vimeo for at least a year to allow for multiple viewings and downloads.

Go Live

We will go live 15 minutes prior to the event. We will stream for an hour and a half which will usually cover the ceremony and early reception mingling.

Replay & Download the recording

Your custom link and video will be saved for 1 year. You can replay and download the video during that 1 year period.

About Our Services

Investment

Basic Package: \$350

This package includes all of the services above with single-camera coverage. The camera will stay towards the back of the facility and we will coordinate with the audio person to share their microphone or provide one so the audience can hear as well as see the happy moments.

Highlights Package: \$500

This package includes all of the services above with one additional camera and an edited highlights reel that can be posted to Vimeo for viewing, sharing, and downloading.

All-Out Package: Contact for a quote

This package can include other cameras, pre-event coverage, extended reception coverage, or a full-length edited video. The sky is the limit. We'd love to collaborate on your vision for your event.
