

PRICING

Floral Services

Our floral prices are quoted individually per event. My belief is that your wedding should be uniquely based on the flowers you choose, the pieces you choose, and your overall vision. We understand everyone has a budget and vision in mind, and we will make suggestions for pricing and flower choices based off of our initial discussions. Due to the rising cost of flowers, we have implemented a minimum of \$2,500 for weddings. The floral studio is located on our personal land, so we are able to save you the cost of overhead.
