## R E V I E W S

The Wheeler House quite literally made our day perfect. I know for a fact our day wouldn't have been the same without them. We stayed in the cottages the night before which made for a stress free transition from there to TWH the next day. The cottages were beautiful and clean, an awesome bonus to our wedding weekend. The entire team at TWH were so professional and communicative, I am so incredibly thankful for them. We only toured TWH when looking for a venue and I immediately fell in love. Seriously, partner up with these folks... you won't regret it. Our day was totally and completely flawless.

The Wheeler House is absolute perfection from viewing their pictures online, to our first walkthrough where we fell IN LOVE, to the most amazing day of our lives. The staff at The Wheeler House made everything so easy- we didn't even think twice about booking with them. They do everything for you by providing Catering, the DJ, the Cake, they even have a Florist and Rental places they work with almost every weekend that turned their already beautiful venue into my dream wedding. It was so easy working with all the vendors they already provide because they are so familiar with exactly how everything runs there. The Wheeler House staff were wonderful from the first inquiry with fast response time to helping us through every step of the way with the best positive energy that just made your day better through stressful wedding planning. I can not say enough amazing, positive things about The Wheeler House!! I promise they will not disappoint!
