# what to expect

"Jonathan brings joy out of everyone he meets." - Aditi & Dhvanil

## ITS ALL ABOUT THE LOVE...

From the very first moment I meet you, I want to make sure you know - I am just a friend with a camera. Many people feel nervous in front of a lens, but I promise, within the first 5 seconds of our shoot, these nerves will fall away and we will be laughing, running around, and having the time of our lives. My sessions, both wedding and engagement, are never overly posed. Instead I focus on bringing out your story and your connection as a couple. Most of the day is spent just capturing those authentic and fun-filled moments. 90% of a wedding day is documentary, capturing the memories unfold in real time. The other 10% of the day is where my creative magic occurs and we get to create and explore together.

I've loved every second of my career as a photographer and I hope it shines through in my life's work. I'm honored you chose me and cannot wait to capture your world and create timeless memories for you and your family.

"A true

need not be  
explained, nor  
can it be  
contained in  
words"

# FAQ's

## How would you describe your photography style?

I'm a huge advocate for candid moments throughout your wedding day! The natural, real, and raw emotions that come along with a wedding day is why I love what I do. I love the documentary style for most of the day and letting things happen organically, but there is always a time for fun, creative photos where my unique style blossoms.

## Do you take family group photos?

Absolutely, I love capturing this legacy and these are always nice gifts for family members.

## Can I give you a specific list of photos to take?

You can, but don't feel its a must. My goal is to work with you to create gorgeous wedding artwork that you'll have to cherish for years to come. -but because your wedding is unique to you, it deserves unique photography too! Don't ever feel obligated to compile a list.

## What equipment do you use?

I shoot exclusively digital, most often using Nikon as my main camera bodies.

## How are my photos delivered?

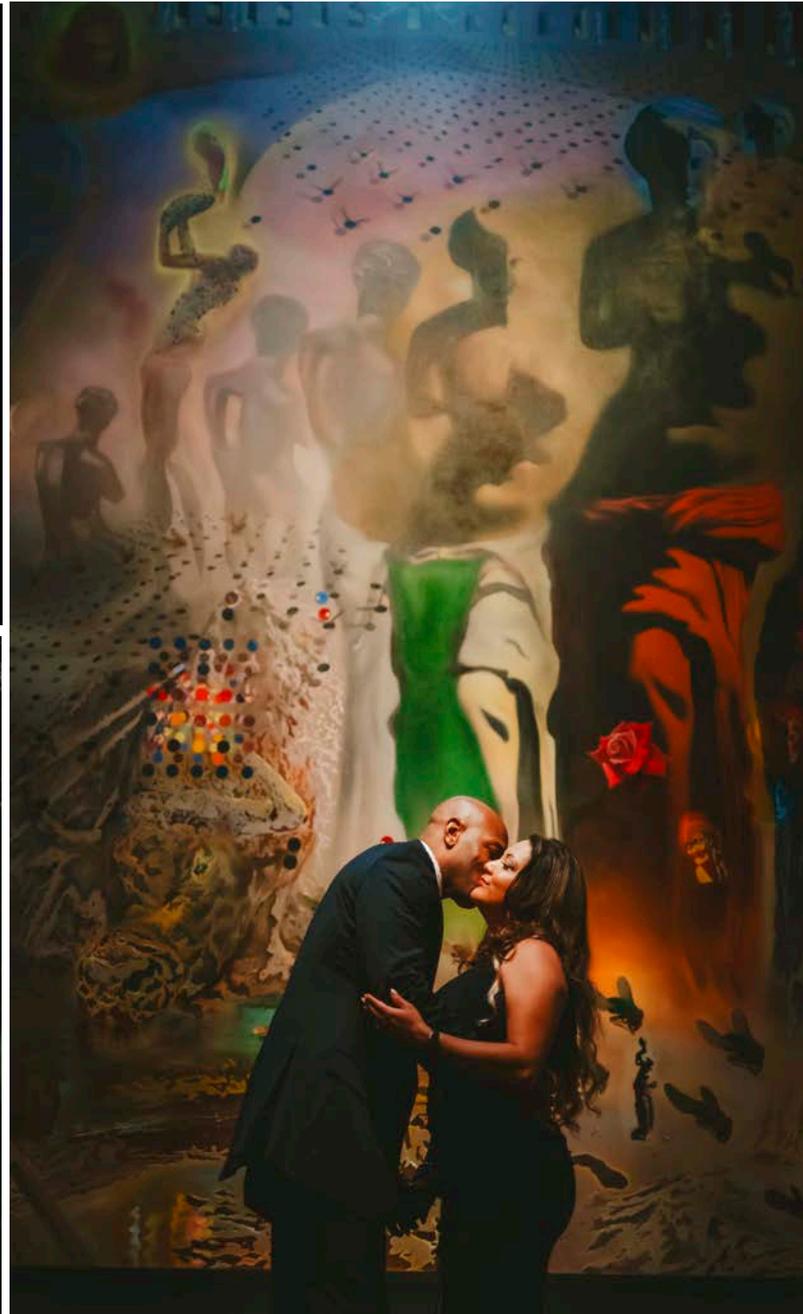

You want your photography to last a lifetime- and you want it in the best possible quality! Online galleries allow you to share your photography with your family and friends around the world at the click of a button, and make as many copies as you desire.

## How long does It take to deliver my photographs?

We think long turnaround times are crazy, and push to have your photographs finished within 4-6 weeks.

## How much experience do you have?

I've been in the wedding photography business for over 15 years now and have shot an average of around 30-40 weddings per year.
