Package Breakdown

Teaser Trailer - Our Teaser Trailer is a 2-3 minute quick highlight of your wedding day ideal for sharing on social media.

Highlight Film - Our Highlight Film is our bread and butter, with a runtime of 8-12 minutes and featuring all the best shots and moments from throughout the whole day, set over a music bed curated by our expert editors.

Feature Film - The Feature Film selection is an extended highlight running 30-60 minutes in total length. The majority of traditionally important moments will be featured in the video though not in entirety. Going between a music bed and natural audio, the Feature Film will put you into your very own movie!

Moments Feature - Beginning our Documentary selections, the Moments Feature takes all the traditionally important moments from your wedding day and puts them into a documentary style video that shows all of them from beginning to end with only organic audio.

Documentary Feature - For a behind the scenes look of your wedding day, this film is for you. Shot in a fly on the wall style, you will see your whole day from start to finish with all the laughs, tears, and good times in between. Run time averaging 120 minutes.

Coverage & Cinematographers - With all packages you can choose between 6, 8, 10, or full coverage depending on your video options. One Cinematographer can cover most of your day but if booking a Documentary package, 2 are required.

Hosting & Delivery - We go through Vimeo for all of our video hosting. From our channel, you can view, share, comment, or like the video. Vimeo also allows Digital Download which is our primary source of delivery. Other options are Google Drive or Dropbox.

Referral Discount - If you refer a friend, they will get 20% off their entire package!
