"There are countless details that Chris brought to our attention that we would have never thought of had it not been for his expertise. His knowledge and skill in making sure the music was exactly what we wanted and ability to carry out all of the reception details was phenomenal. We loved having Chris be a part of our wedding and would definitely recommend him to anyone!"

"I knew from our first meeting that he was going to be professional, organized, and friendly to work with. Not only did he meet my expectations, but he blew them out of the water. I don't understand how he can be so attentive, timely, and devoted to each event he works when he is clearly a busy man, but he does it somehow. A master of his craft and the best in the Berkshires, hands down."

"We are especially appreciative of his thoroughness, attention to detail, flexibility, AND, despite doing many many weddings, his enthusiasm for helping us build exactly the weekend WE had in mind -- guiding us on what we could learn from the best of conventional wedding traditions, and allowing us full creative license to shape the rest. We'd highly recommend!"

"Chris did a wonderful job not only on our wedding day but throughout the entire wedding planning process. He is very professional, honest, and a very talented DJ and MC. Our wedding day went soo smoothly thanks to Chris and it ended with all our guests dancing the night away!! To say it was perfect would be an understatement!"
