A NOTE FROM STEVE

Since earning degrees in both Film and in Photography (BA Columbia College, Chicago), I have been a professional photographer, doing commercial, editorial, portraiture and fine art photography, but weddings are my favorite. I have learned how to carefully, and quickly, capture the special moments for the bride and groom, so that they, their parents, family, and guests will enjoy the experience and enjoy the day. The results will be images captured to truly reflect the joy and happiness of the entire day. I am very proud of my work. I love it when I hear that the videos and images we create are among the couple's most cherished possessions.

My suggestion to the bride and groom is to look closely at their potential photographers and hire the most experienced and talented photographer that they can find. This will ensure a day that runs smoothly, is a lot of fun, and results will be amazing. Cinematic style weddings videography has come a long way in the past couple years. A precision edited highlights film or or full 90 minute video, can be the best way to truly feel the day

Our planning, state of the art equipment, talent for capture, and creative post-production services are the best. We are easy to work with and flexible enough to make sure your wedding day is the day that you will always remember and cherish!

Best wishes,

Steve Toepp

CLIENT COMMENTS:

"When my wife and I entered Steve's studio and saw samples of his work, we realized that his keen eye and creative mind set him apart from other photographers. Steve was fun and accommodating all through our day. As we reviewed the proofs from our wedding, we saw his talent evident in every shot, and now each of those pictures helps to crystallize the memories of a special moment in our lives."

"Steve Toepp was recommended to us by friends who were thrilled with the results of his work. After viewing some of his images, we knew without a doubt that he would do a wonderful job as our wedding photographer. Our photographs reflect the joy and love felt on our wedding day. The quality of the photographs, including the style and artistic quality, without exception, exceeded our expectations. We continue to have compliments on our wedding album, and we are confident that other couples will have the same experience."
