

How much does a wedding cake cost?

A wedding cake is part of your wedding themes, color palette and favorite wedding cake flavors to create the perfect baked goods for your special day. Custom cakes come in a range of shapes, flavors and sizes. Additions like fresh flowers, sugar flowers, cake toppers and decorative wedding cake trends will transform a classic cake into a work of art.

On average, a wedding cake costs between \$350.00 and \$450.00 nationwide. Several factors affect the average cost of a wedding cake including the size of the cake, the ingredients, the number of tiers, the delivery location, and any special flavors or decorations.

The price per slice for a wedding cake may increase if the customer requests a special color that the baker must custom-create for the frosting or cake batter. More exotic colors, like edible gold color, edible silver, edible rose gold or edible gold leaf, or more intricate cake designs and color schemes, such as multicolored tiers or ombre frosting, will also increase the cost per slice.
