Capturing the best of your big day

The best memories of your day

It is an honor to document the most important days of this life,
particularly the ones celebrating love

No matter what that looks like.

No matter where it takes us.

It is my honor to capture timeless images that become cherished memories.

What Goes Into Professional Photography

LOCATION + LOGISTICS

Locations are scouted in person prior to your session. Great views, lighting + accessibility are planned prior to your session so we have the freedom to play.

THE SHOOTING

Enjoy the time in a beautiful place with your favorite person + let me take care of the rest. Sessions can be anywhere from an hour to a full day.

IMAGES + EDITING

Each image in your gallery is individually edited + color corrected - this means making sure whites are white + colors are true to life + can include photoshopping distractions out of images.

Editing a single image can take 5-30 minutes. A gallery of 350 images can take anywhere from 20-30 hours in post-production.

PRINTS

Your images deserve a place in your lives beyond just your computer screen. I work with one of the top printing labs in the US for all my physical prints. Canvas, metal, acrylic, + paper prints can be ordered directly from your digital gallery, with full satisfaction guaranteed.

CONNECTING WITH COUPLES

When selecting wedding vendors, it is of the utmost importance that you're able to put your full trust into these professionals. Wedding photographers will be with you throughout the day, and it's important that you find a professional who you mesh with.

Consider booking an engagement session to get more comfortable with portraits. These portrait sessions make for great save-the-dates and invitations. It's also a great chance to get to know each other + get comfortable in front of the camera in a more relaxed, fun setting.

So many people start by telling me that they hate photos of themselves. If you're not psyched on photos of yourself, you won't be psyched getting your picture taken. If you're not psyched on getting your picture taken, it shows. It's my job to shake you out of whatever insecurity that you might have and help you rock it.

Tips:

Have fun

Be yourself

Enjoy it!

The heart of ELP

Hi! I'm Emma Lynne,

It is a privilege to capture celebrations of love. I've been obsessed with photography since I was a tiny human. I've been taking photographs my whole life + am always grateful to capture meaningful images of some of the most important days of life.

My path has been uniquely my own + I seek to find individuality + honesty in my subjects. I'm constantly so honored to witness celebrations of love + give my couples a full story of their big day.

A BIT ABOUT ME:

I draw inspiration from some of the most dedicated, passionate mentors + friends. I began photographing weddings in 2009, learning + growing under the guidance of a handful of creative professionals. In 2018, I jumped into life as a full time photographer + I couldn't be more grateful to dedicate my life to truth + storytelling.

I'm based out of the foothills of Tahoe + spend much of the year on the go for various productions + projects.

When I'm not photographing, I'm celebrating life with loved ones (and our dogs), getting humbled climbing big rocks, loving on horses, or finding a quiet moment for yoga. I love connecting with my subjects + always encourage you to reach out if you're inspired by what you see.
