

A warm, golden-hour photograph of a wedding scene. In the foreground, a bride in a white dress is crying with her hands covering her face. To her left, a groom in a dark suit is smiling and looking towards her. In the background, another person is visible, and the scene is filled with soft, bokeh light from the setting or rising sun.

planning with planners

We've been at the business of events for many years and understand the added stress planning a wedding adds to pre-marital life. Don't worry, our team of wedding professionals takes care of just about everything for you and the reason more couples choose SKY Armory.

Once you say yes to SKY Armory, you'll experience a series of meetings to get you to your wedding day. The **vision meeting** is our chance to get to know you as a couple, the vibe you want for the day, what's important to you, how to manage your budget, building your event team and getting you on the way to planning your celebration. Next up is your **design meeting**. Our design team will help create your look for your day - linen colors, centerpieces, room décor and other personalized touches. Your planner will invite you to a **tasting event** 6-8 months prior to your wedding day. You (the couple) and 4 guests will experience our food, desserts and cocktails. We will also stage your linen selections, centerpieces and give you a sneak peek into what your wedding will look like. After the tasting event we're ready to **craft your menu**. Once you're in the home stretch we'll schedule a **pre-wedding meeting** to run through the final timeline for the day and all the details.

The background consists of a wall of light-colored, textured fabric. In the foreground, there are black metal lanterns with lit candles, adding to the warm, intimate atmosphere.

for the love of food

We're passionate about food and start with a talented culinary team who only uses the best and freshest ingredients when preparing your menu. Our approach to food is restaurant like - we just produce in larger quantities. Our chefs create plate flavor profiles and presentation is just as important as taste. And because we prepare our food from scratch we can easily accommodate dietary restrictions and food allergies.
