Booking Chris O Entertainment and Events our next step in the process of capturing your vision for the event is a detailed meeting to ensure the best results. The professionalism and attitude we provide is the standard of quality in every event and gathering we DJ/MC. Preparations and execution of your timeline is what we specialize in while we create a stress-free environment for you and your guests. At Chris O Entertainment and Events we work directly with your vendors and venues to maximize communications before events are executed. This guarantees a worry-free experience.

My Entertainment career started professionally in 1999 with at the time the only nationwide DJ company in the U.S. I worked with them for 16 years and built valuable relationships with local vendors and the talk of the town amongst Bridal social networks. I retired in 2016 to open my own DJ company early 2018. During that 16-year career, I have entertained at over 1200 events and was my company's branch most requested DJ for 12 years. I take pride in my events and made sure my clients were the center of the attention for their special day. To this day the quality of my events has never diminished. Neither has the excitement I feel when I meet a new couple to plan the most important day of their life.
