OVERVIEW

The best wedding we know how to throw

This is the wedding that I would throw for myself. I've pulled together the most successful lessons from every event that we've thrown. The result is a wedding and reception that both epitomizes and advances the uniquely New Orleans style of celebration. This is a party for those who want to dance, who care deeply about the food, and, most importantly, who want to ensure no one ever forgets it. From the projection to the passed dinner, we're doing it like no one else can.

WHATS INCLUDED

- All of the items that are regularly included in the Rental Fee plus an additional hour and overnight room.
- A Second Line between the ceremony and reception along our Coliseum Way, with the band then playing your first dance songs in the courtyard.
- One of our favorite actual performing DJs (as opposed to a "Wedding DJ") who matches your tastes and has experience getting the best out of our killer soundsystem.
- Endless delicious New Orleans cuisine served luxuriously as passed dishes right out of our centrally located kitchen and onto the dance floor. I know this is the hardest sell but trust fam, this is the single move that both elevates the food and keeps the party rolling.
- Our full all-inclusive bar package with frozen drinks, signature cocktails, and bartenders who actually know what they're doing.
- Your invitations - designed and printed with custom illustrations that are then also projected on our 70ft wide projection wall in the courtyard, VJ'd to the music by the same graphic designer who drew them. The projection system alone would be \$10,000+ as a rental at another venue.
- A photographer who's fun to spend the day with and whom I've personally vetted as capable of shooting in dynamic theatrical lighting where we've seen other wedding photographers struggle.
- Planning by yours truly, Trenton Gauthier, architect and owner of the venue, scholar of all things party.
- A hyped-up day of attendant who knows our venue back and forth and is as excited about getting to throw the perfect party there as I am.
