# HEY BOO! NICE TO MEET YOU.

*Extroverted Capricorn, Mac & Cheese Addict,  
and Professional Nextflixer*

First let me say, I'm so happy you reached out to me! I can't wait to get to know more about you and make you and your partner look like movie stars on your wedding day!

A little bit about me, I'm an Arizona Native (yes, one of the rare ones) who's been fortunate enough to have lived here my whole life. I majored in Digital Film in college with the intention of being the next Spielberg, but after I photographed my first wedding in 2014 I realized what my true calling is. I've been photographing weddings ever since.

I'm driven on making connections, that's why I spend my time getting to know you and your partner. I want you to love the person who is spending 6+ hours with you on the most important day of your life.

When I'm not working (which is hardly ever, I'm a workaholic) I enjoy streaming movies and TV shows and traveling. I have an ever growing list of movies, and TV shows I have every intention of watching...eventually. I also love traveling, some of my favorite places are Sedona, Portland and Seattle. I know what are the chances a desert dweller would love the cold and rain.

I can't wait to give you a glimpse of what it's like to have me as your wedding photographer.

**"BEING WITH MAYA FELT LIKE I HAD KNOWN HER FOR YEARS; LIKE SHE WAS PART OF OUR FAMILY. MAYA CAPTURED OUR WEDDING AND OUR JOY SO PERFECTLY."**

*Maya + Sean*

"Maya was the most amazing photographer I could have asked for, and I feel so lucky to have gotten her. Her work is incredible, partly because she has great ideas and a great eye, partly because the tones in her photos are the dreamiest, and partly because she makes everyone feel so comfortable around her. Being with Maya felt like I had known her for years; like she was part of our family. Maya captured our wedding and our joy so perfectly. She shot our wedding on a snowy new year's day early in the morning- conditions most people would prefer to be inside, sleeping, and/or hungover for. I appreciate everything she did for us, from her support, to how absurdly fast her picture turnaround was. She even went above and beyond by recommended a florist and picked up the flowers for us! I highly recommend booking Maya, asap! I feel bad for anyone that doesn't get Maya on their wedding day"

# YOUR CLIENT EXPERIENCE

Wedding planning is hard enough, choosing your wedding photographer shouldn't have to be. That's why I strive to create a stress-free experience. Because of my experience as a director, I'm involved with you from the planning stage (pre-production) your wedding day (principal photography) and delivery of your wedding galleries (post production). Each step along the process I work with you, giving advice and suggestions but respecting the vision you have for your wedding day. And don't worry if you feel awkward in photos. While we're taking photos, I will make sure to direct you and your partner so you don't have to worry about "What do I do with my hands?"

I completely understand how important family gathering are. Weddings are momentous occasions not just for you but also the community you invite to celebrate with you. That's why I spend extra special attention to your guests, so you can see the impact you have on your community. I focus on capturing all the reactions in the room. Your wedding party crying during your vows, your parents holding hands during your ceremony, even your baby cousins. All of it, so you don't have to worry about what your community felt on your wedding, you'll be able to see it.

# THE INVESTMENT

Here's my ideas behind pricing....

Here's the thing, your wedding only happens once, you've put in blood, sweat and tears getting the details together, and corralling all of your family in the same room. You deserve a photographer that recognizes the importance of the work you've put in and is ready to capture all the moments of your day. Weddings are the closest thing to living out a movie in real life. As your photographer, I keep an eye out for how your community reacts when they see you. The moments where your parents hold hands during your ring exchange, or when your maid of honor cries laughing at the joke in your vows, I focus on getting not just you and your partner's interaction but all the other reactions in the room. I come in as a community member, integrated in your family so that I don't come off as a stranger who's crashing your wedding day. I promise, I will feel more like a family friend that you've known for years. Days like these rarely happen anymore, so it's super important to capture as many in-between family moments as possible.

# "SHE'S THE BEST DECISION WE EVER MADE FOR OUR WEDDING DAY"

*Emily + Chris*

"Maya is the only person I ever want to have take my picture again! She did a beautiful engagement session and our wedding and we are eternally grateful for the priceless memories she was able to capture. Our photos from both are STUNNING, and as someone who hates having their picture taken, she made us feel comfortable and made everything so fun and easy!! And she is the ultimate hype-woman! You will feel like a super model walking fashion week when she is behind the lens. Needless to say we highly recommend Maya, she is super talented and amazing at her job and we adore her!!"
