## Floral

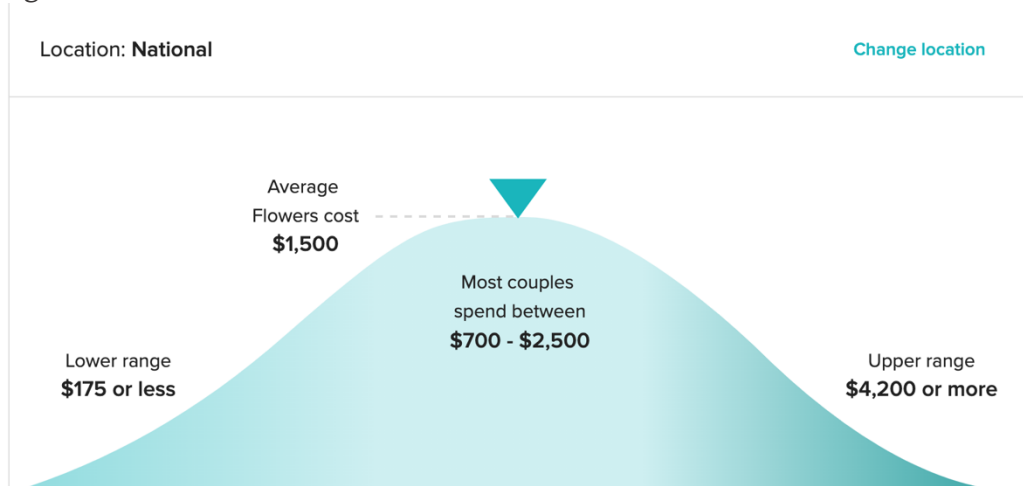

### *general price guide*

Almost every bride we have talked to is so unsure of where to even start with a floral budget! Because you have probably never ordered flowers like this before, we created this Floral Pricing Guide to help you understand what things cost, allowing you to accurately plan your perfect wedding without spending a fortune!

Wedding flower pricing can vary significantly depending on the type of flowers, size of wedding, style, number of arrangements, etc. And when you consider things like shipping (most flowers that are used in Utah come from the US coasts and South America), handling (it takes a lot of time to actually arrange the flowers) and care (products to keep flowers fresh and vibrant) things can get pricey fast! As much as we wish flowers were free, they aren't... so we hope this is helpful for you to know accurate costs beforehand as we try to figure out what you are looking for.

All costs below are approximate! We always suggest talking specifics with us to help get an exact idea what you want and at a price you feel comfortable with, but sometimes it can be helpful to get a general idea of some of the average wedding floral prices we have done! After talking, prices fluctuate, and we can work together to come to a price you can feel comfortable and happy with!

To start, we put a national average graph from weddingwire.com of floral pricing so you can get a better idea!

# What goes into the price?

## *consultation:*

We will meet with you to discuss your vision for your wedding—your venue, your wedding style, your desired color palette, and the types of flowers you like and dislike. We then take the time to create a concept board and invoice specifically for you which will describe the arrangements we will create as well as the prices.

## *bridal bouquet:*

We suggest ordering a bridal bouquet for pictures before the wedding to ensure that we are all on the same page about how your wedding-day flowers will look.

## *purchasing:*

A big part of successful wedding flowers requires the actual purchasing of the flowers. It takes several hours for Rose and Thyme to put a flower order together (designing, pricing, ordering, and making adjustments.) The flowers we receive from our wholesaler are far better quality than the ones you can buy at your local grocery store. They're grown especially to be featured at events and are hand-selected for their quality.

## *supplies:*

Leading up to your wedding, we purchase all the things we need to create the beautiful pieces we make! We find the perfect color of silk dyed ribbon and buy tape, wire, wristlets and floral glue! Flowers need water, but Rose + Thyme floral also purchases special hydration fluids and products to keep those flowers blooming! We keep inventory of items we have, and always make sure we have everything we need to ensure flowers that are secure and beautiful the whole day long!

### *flower processing and storage:*

Once your flowers arrive to us, we will take several hours (often a whole day!) to process your flowers (taking thorns off of roses, counting the flowers, giving them adequate sun and special hydrating treatments, etc.) and storing them in a refrigerated space to ensure they look amazing on your wedding day!

### *labor and production:*

Now, it's time for us to create those beautiful arrangements custom created for YOU! Each arrangement takes time to design (probably more than you would think!) thinking of exactly what we had talked about and creating something that is "thymeless" and memorable for you! It is quite a long process, but it is WELL worth it!

### *delivery and set up:*

Rose + Thyme will then bring your arrangements to your venue if needed. A good amount of work needs to be done on premises to make sure that your ceremony and reception looks picture-perfect, from the altar, to the reception table arrangements, to welcome signs, to cake flowers, to arches!
